# SYSTEM BENEFITS

## HIGH-PERFORMANCE PU/MMA COATING

- One-hour cure (at -15° F - 90° F) reduces operational downtime
- Flexible membrane with superior elongation properties (450%) allows for vibration and movement
- Non-porous, stain resistant, waterproof surface
- Seamless finish for a more hygienic, cleanable floor
- Chemically resistant to most non-solvent based contaminants and aggressors
- UV stable for indoor or outdoor application
- Designed to withstand heavy impact and traffic
- Low maintenance, easily repairable
- Many color and slip resistance options

*DEK-650 Flexible Membrane achieves 450% elongation as performed by ASTM D638.*
